

EVOTEX WHITE INK

DESCRIPTION:

EVOTEX WHITE INK is made out of self cross linking Acrylic Co-polymer Emulsion. It gives soft and durable film properties. It has excellent thermal and mechanical stability which gives it superior running properties. This has a special acrylic system which gives good wet-rubbing fastness even on viscose, high twisted cotton, synthetic, acrylic and their blends.

EVOTEX WHITE INK is too much wet grinding involved in manufacturing process that is why it become more whiter & softer, average particals of this ink is around 6 microns.

PROPERTIES:

APPEARANCE : Milky White thick paste.

NATURE : Non-ionic.

PH : 8 to 9

SOLID CONTENT : 55%

FEATURES:

- ❖ Ready to print with soft and silky feel.
- ❖ Easy application without any chocking problem.
- ❖ Fast pigment printing on synthetic with extra softness at printed area.
- ❖ Beautiful reproduction of half tone effects by over printing of other dyestuff over khadi prints.
- ❖ Suitable for all types of fabric.
- ❖ Suitable for rotary and flat belt printing.
